

XM Satellite Radio and its traffic and weather broadcast provides variety and quality that are not available elsewhere. The AM stations that provide traffic coverage in my area are full of static and unbearable to listen too. Since I pay for these services it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I enjoy and deserve.
